NOTICE RECEIVED 6/12/09

HON. Robert E. Gerber
United States Bankruptcy Judge
Court of the Southern District of New York,
One Bowling Green
New York, New York 10000

RE: Jurisdiction retainerment 6/2/09 order

Your Honor:

In administrative Functions in the general sense, are GM legacy benefits, a blessing or are they a curse to receiver and provider?

The case: two juvenile onset, adult dependant brothers, unequally endowed with benefits.

One with full medical package, the other, thru survivor domicile UAW-GM legal engineering, the option of package, declined in practice, but the option right maintained for equality and social justice progress, forum.

The brother with package, became a target of systemic abuse, for private/state political profit.

The brother without, then became a target, presuming he had the same coverage, for reporting the systemic abuse.

What happened then, may be of great interest to all parties in this National Bankruptcy.

sincerely

UNITED STATES BANKRUPTCY COURT
SOUTHERN DISTRICT OF NEW YORK

In re

GENERAL MOTORS CORP., et al.,
(DELPHI) -----

chapter 11 case NO.
09-50026, (REG)
(Jointly Administered)

RESPONSE IN LIEU OF FORMAL NOTICE-MOTION
EQUITY INTEREST ENTITIES ESTATES

Arthur R. (A) Woodke EOE EAW custodian, s. t., etc..
States that:

Not having recieved response to exclusionary
notice Dec. 2008 (with concerns to addressee
Bank bombing adjacent, report(s)):

1. Concurs with Court Notice Interim terms,
reserving all rights of ESTATE herein.

2. This is not nuisance or finance motivated.

3. This is not a call for censorship;

A. Many prejudicial* Official comments are
being made about GMs "legacy", without
forum for counter comments.

*possibly

3. cont, B. It is Estates intent to elucidate for all, by private example, where U.S.-GM "legacy" failings exist, pandering to unsustainable profit motives, masked as majority rule, or emergency needs, and where they succeed, (EAW).

C. Some short exemplars:

Did GMs applications of freon gas, hinder or accelerate Civil Rights advances?

Did Estates advisory of this lead to demotion to public transport division, accuired to liquidate for monopoly?

Did Estates private acts to offset accomodation of such U.S./GM exigent, qualify Estate for exemption from loss thru exact carry-over, as an intangible value to both or all affected by this, action?

4. This response is not to "re-try" the 1940's, 50's, or 60's.

5. This response is to ensure that the U.S./GM "entity" in whatever emergence, protects the "I told you so" loyal opposition so that future U.S./GM entitules do not end up in the same cascade of crisis(s).

6. How this is entertained by the Court,

AW

6/14/09

6. cont., Estate makes no demand other than clarification of where Executive, Judicial and legislative branch exist as to ENTITULE, in proper paper wall format(s).

7. Estate ask a subsidy, voucher, interim function, FUND? ----- be set up for service of GM/U.S. vehicle, private sector, non profit owners) no longer capable of attending, or legal representation for such AMICUS TO ALL interface, herein, only.

Or: Pro bono aid/assist/consideration as to source of inability to comply in format assignment, by Court, in the Public Interest. (Depose respondent)

The failures of GM and the U.S. by abuse, have depleted contingent funds access, for such non-profit advisory.

Arthur R.(A) Woodke EOE EAW cust., has some valuable insight that should be heard. It is systemic abuse, that have led to GMs "failure", and soon to follow Social Security, NOT the correct applications at the source, citing former NEW YORK SEN. Hillary Clintons, Village concepts.

Respectfully

shareholder, UAW, voter,
GM booster - advocate.
